

Back to School Supplies Drive

HFMA is partnering with the Flower City Habitat for Humanity to provide scientific calculators and backpacks for the children who live in Habitat homes. Each year, city middle and high school students have a great need for these items, but they go without, so we are targeting them in particular.

Pens, pencils, folders, composition notebooks, loose leaf paper, erasers, and 3-ring binders will also be accepted but the greatest need is for calculators and backpacks.

**Please bring donations to HFMA Golf Tournament on
Thursday, July 22, 2010.**

In addition, look for a collection box near you from August 2 to August 13.
