

“2011 OPPS UPDATES, CODING CHANGES and CHARGE MASTER APPROACHES”

Tuesday January 25th and Wednesday January 26th

8:00am – 4:30pm

Holiday Inn – Buffalo/Amherst

1881 Niagara Falls Boulevard

Amherst, NY 14228-3599

716-691-8181

Workshop Overview

2011 includes 400 CPT revisions, deletions, and additions. In order to avoid claim denials and coding errors as well as capture revenue for accurately documented services, it is critical that you keep current on relevant and significant updates to CPT as well as HCPCS codes.

Join us to learn about specific code changes, the rationale behind the change, and the impact these changes will have on your charge description master. The work shop will be presented by Navigant Consulting and cover the items below by clinical department:

- 2011 CPT and HCPCS update
- Charge Capture Strategies
- Tips for Auditing and Monitoring
- Regulatory Update and Considerations

Objectives

After attending this meeting, participants should be able to:

- Implement the new OPPS rules into day to day operations
- Cite important CPT and HCPCS coding changes for 2011;
- Describe the use of new codes;
- Identify target areas for investigation;
- Analyze current use of the charge description master to identify opportunities for improvement in charge capture, and
- Implement office policies and procedures to ensure compliance with fraud and abuse regulations and statutes.

Target Audience

This work shop is designed for hospital facility billing and coding staff, and administrators/managers who have some knowledge of coding and compliance issues, and the charge master maintenance process.

Note to Participants

The work shop will provide for methods and ways to review your specific CDM and usage statistics at a CPT/HCPCS level. You may find that bringing your individual facility CDM to the work shop will be most helpful in understanding the methods discussed. For specifics on layout and field requirements, email caroline.rader@navigantconsulting.com.
