APR DRGs: Understand Your Hospital's Opportunity***

Medicaid Reform and the recalibration of APR DRG weights has introduced an across the board sweeping decline in the New York State Hospital Medicaid CMI. Furthermore, the introduction of the APR DRG methodology necessitates a re-examination of the facility's priorities relative to Clinical Documentation Improvement initiatives.

This session will cover:

- The new APR-DRG weights that have just been released and the potential impact on various product lines.
- Areas that warrant increased review to ensure maintenance of your CMI.
- Strategies to increase APR-DRG CMI including clinical documentation improvement initiatives and ongoing coder training.
